***MASTERPIECE INTERIORS' RESORT DIVISION DESIGNS MODEL
FOR MCNALLY HOMES AT GINN REUNION RESORT***

ORLANDO, FL – The fast growing Resort Design Division of *Masterpiece Interiors* continued its torrid pace by designing a model home at *Ginn Reunion Resort* geared specifically for the vacation and second-home market.

Resort Designs, the hospitality division one of three separate entities under the Masterpiece Interiors' umbrella, designed the model for longtime Orlando custom builder *McNally Homes*, a five-generation builder making its initial foray into Central Florida's burgeoning vacation/second home arena.

The model is the *Verona*, a luxurious two-story 4-bedroom, 4.5 bath Mediterranean-styled residence featuring 3,171 square feet of living area.

McNally Homes, a Dr. Phillips-based company best known for its high-end custom homes in such communities as Isleworth, Celebration and Keene's Pointe, is one of the featured builders in Reunion Resort, site of the recent 2008 LPGA Ginn Open won by Lorena Ochoa. The award-winning company is building both 35- and 55-foot product lines in the resort community.

Masterpiece Interiors COO *Christy Scanlon* says the Verona, one of a half-dozen two- and three-story plans being introduced by McNally Homes, was designed to have global appeal to the myriad vacationers from around the world looking to make Central Florida their second home.

According to Scanlon, the model features a "One-of-a-kind interior package designed specifically to the high standards of Reunion Resort's rental management program. It features a dramatic color palette and a stunning mix of specialty textiles and furnishings expected of a high-end, top draw resort community."

Scanlon adds that Masterpiece was delighted to have an opportunity to team up with one of the area's foremost custom builders and come up with a finished product that we believe "goes far in setting a new standard for Reunion Resort's luxury residences."

Resort Designs is part of a family of design entities comprising Masterpiece Interiors, a 10-year-old Winter Park-based company that also includes Model Merchandising and Residential divisions. It was created to provide interior design services to the residential resort community and is the preferred designer for Ginn Company.

Since its inception in 1998, *Masterpiece Interiors* has evolved into one of the state's premier interior design companies with clients throughout Orlando, Tampa, Sarasota-Bradenton, Jacksonville and south Florida. Besides Ginn Reunion Resort, the company also has provided professional design services for a number of building industry heavyweights, including *Engle Homes, Neal Communities, Lennar Homes, Park Square Homes, Ryland Homes, Imperial Homes, Mobley Homes* and *Royal Custom Homes*.
