

home&design

Palazzo Lago, a model home by Silliman Homes at Waterstone, a development in Windermere, is full of surprises. It's traditional, transitional and functional with living spaces perfectly tailored to the Central Florida climate. From the glazed porcelain tiled foyer with a mosaic accent to the open Florida room with maple flooring, stained cypress beams and large French doors leading out to the spacious pool deck overlooking Lake Butler, this is livable luxury. The interior finishes and architectural detailing as well as the furnishings are by Masterpiece Design Group.
